Application Spotlight: Presentation Slide Video

New Product: Tool Tray Shuttles

Welker announces the addition of tool tray shuttles to its robust and durable line of automation components. The shuttles utilize electric actuators and absolute encoders for high repeatability. Experts in weld tooling, Welker offers a quick turnaround for custom engineered designs.

Carriage plates are machined to customer hole patterns and feature precision homing/lockout pins. A hard-plumbed manifold is available for easy access lubrication. For more info and videos visit http://www.welkerproducts.com/electric_slides.php

Sales Spotlight: Design Components

Welker is represented in Northern Illinois, SE Wisconsin, and NW Indiana by John Dincher and Yamil Guerra of Design Components Inc. Serving the manufacturing sector since 1986, they bring “expert product knowledge” to the Welker Sales Team. Stop by the Welker booth at Fabtech 2015 to say hello or contact their office at (847) 358-4300.

Application Spotlight: Part Presentation Slide
