## New Product: LP Series Slides

Welker introduces a new series of extremely compact rail slides. Available in strokes up to 495mm, units feature aluminum carriage & base plate. Fixed metal shroud protects rails from contaminants. Ideal for model select. For more info & video visit <http://www.welkerproducts.com/slides.php>

## Site Expansion

Welker is pleased to announce a 34,000 square foot expansion of its Troy facility. The substantial growth of product offerings and manufacturing capacity has led to a need for additional space. Assembly & test area will enlarge to accommodate production of the new part presentation slides and tool tray shuttles.
