

WP4 Shot Pin Cylinder Update

Welker is pleased to announce an upgrade to the pneumatic cylinders in our WP4 Shot Pins. The new integrated design will be replacing the Parker compact cylinder and the tie rod version for both single rod and double rod options. (Hydraulic cylinders will remain unchanged)

Size comparisons of new Welker integrated cylinder next to Parker (left) and tie rod (right) cylinders:

Single rod shown, 25mm stroke

Double rod shown, 25mm stroke

Welker's new L3 weld field immune cylinder switch is an added option.
